Local History Gets Personal with In My Day

By Jessica Robinson
Local History Librarian

Through May 2019, Heights Libraries is inviting community members to celebrate the rich and diverse history of the Heights community by sharing their memories through the In My Day oral history project. In My Day was inspired by our Centennial Celebration in

2016, and also by past publications in our community such as the book *In My Day: Cleveland Heights* edited by Suzanne Ringler Jones and Heights Community Congress.

Interviews are conducted using the SimplyTold

storytelling app. A collaborative tool created by Cleveland-based tech start-up Digital Mosaic, SimplyTold allows users to both record interviews on their phones and upload them to Digital Mosaic’s website to share. True to its name, the app is user-friendly, easy to install, and free of charge.

This project will help us reach outside of our library’s walls by utilizing the SimplyTold app to collect stories so that anyone can record their story anytime and anywhere they want so long as they have an internet connection and the guest login. This means more stories, more inclusion, and a better representation of our community than has ever been captured before.

Look on pages 16–17 of this issue of Check Us Out for detailed information about how to get involved by either signing up to be interviewed, or using the app to record their own friends and family members.

In My Day is funded in part by an ArtsNEXT grant from the Ohio Arts Council.
